### GOMPERS' STAND

It should not be necessary to Samuel Compers, president of the American Federation of Lab. , to defend his attitude toward the Russian acviet government, which is backed up by action of the execu tive council of the federation. Amecan labor has nothing in commo with sovietism.

In a letter addressed to several central trades unions, President Gompers denounces as "unpatriotic Americans" the labor leaders who have criticized him for the stand taken by the federation toward bolsheviatic inhor organizations of Enrope. President Compers mays that his criticism is leased on misinfor mation concerning conditions in Sus sia. The executive council of the federation has declared that the sov let government of Russia is the enemy of industrial workers. # CALIFORNIA PETROLEUM AND REFINING COMPANY

OF COLUSA COUNTY, CALIFORNIA

THE OIL INDUSTRY, this company owns a perpetual lease upon 720 acres, right in the heart of the new oil district in Colusa County California and is now prepared to take subscriptions for treasury stock. The directors of this company a s'tort time ago, authorized the sale of 100,000 shares of the Treasury stock at 25c per share, but since that time the company has practically made arrangements with the California Corporation Commission to sell its stock in that state, and when those arrangements have been completed the company will open an office either in San Francisco or Los Angeles and the price of the stock will be raised to 50c per share.

#### STATEMENT OF MR. T. J. MEDDOCK THE CALIFORNIA PETROLEUM AND REFINING COMPANY

Gentlemen: I take pleasure in sending you a brief statement upon

your oil holdings of Colusa Co.

California. First of all, you are centrally located in what is almost certain to be in the near future one of the great oil producing districts of California. Next in

line is that most wonderful structure commonly called a "dome" or sign post for geologists. Undoubtedly this dome was forced up by great pressure, for it seemingly has no connection whatever with a glacier slide, considering the distance it lies from the nearest mountains, which is a low range, and practically only foothills.

The quality of the oil produced in that section is almost without an equal, and according to a cross section map made by the Tuscan Oil Company which is operating in that district, which I have examined thoroughly, and no doubt that company has proven to be correct, by the drillings of their well. I find that the formation and all surface indications are most excellent. rough examination which I will make very soon I will forward to you a full detailed report, and the possibility of your
